

SHOW YOUR FIREPLACE IN A GLOWING LIGHT

Artisan Gates
Decorative gate mesh doors for masonry
and factory built fireplaces

DESIGN SPECIALTIES

Making your fireplace the focal point.

Show off your fireplace – all of it. The Artisan Gates provide the architectural detail and airy feel of a free-standing screen without sacrificing the beauty of your fascia. The precisely engineered mesh opens up the area around the firebox and enhances your view of the fireplace as a whole. Each gate is made specifically for your fireplace, and attaches securely inside the opening. Safety is improved since children or pets can't tip it over. And you don't have to move aside a screen to add wood – simply swing open the door. Choose the Artisan Gate Mesh and let your fireplace come to life!

Bask in the glow.

- Many rich powder coat finishes and unique designs are available to highlight any décor.
- Shown: Arch with Scroll Design in Vintage Iron.

Give your fireplace a new lease on light.

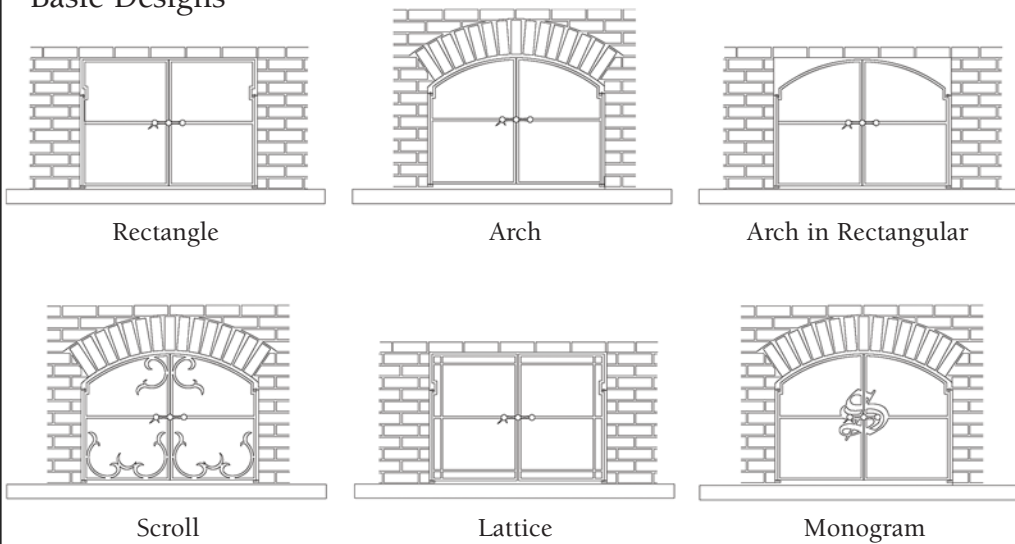

- Hand-crafted models available for factory built fireplaces.
- Shown: Artisan Gate Mesh ZC Rectangle with Circle Design in Graphite.

Color options for all doors can be viewed on our website at www.glassfireplacedoors.com

Fit your specifications – and your style.

Choose from Basic or Custom designs. Our expertise in laser cutting steel can realize your vision. Just ask your dealer. See more designs online at www.glassfireplacedoors.com.
